Data diperoleh dengan menyebarluaskan kuesioner secara *online* melalui *googleform* dengan pengukuran skala *likert* kepada 107 pelaku UMKM di Kota Batam secara *simple random sampling*. Data tersebut diolah dengan SmartPLS 3.0. Metode analisis yang dilakukan ada dua yaitu analisis deskriptif dan inferensial. Analisis inferensial terdiri dari uji outer model dan inner model. Uji outer model terdiri dari uji validitas dan reliabilitas. Uji inner terdiri dari uji multikolinearitas, R-square dan uji bootstrapping. Berdasarkan hasil data analisis menggunakan SmartPLS, *digital marketing* berpengaruh signifikan terhadap kinerja UMKM, *e-commerce* berpengaruh signifikan terhadap kinerja UMKM, dan inovasi berpengaruh signifikan terhadap kinerja UMKM.
